

PRESS RELEASE: Ipsen off to a blazing start for beginning of 2007

(February 28, 2007)-- Ipsen Inc., Rockford, IL –Furnace orders for the beginning of 2007 are off to a blazing start for several of Ipsen’s key customers. Ipsen has received orders for five vacuum furnaces for delivery in 2007. Gloenco, Newport, NH purchased a HR-50x 72 2-Bar MetalMaster™ vacuum furnaces with a specially engineered heat exchanger and turbine blower designed to optimize gas flow for more efficient cooling for their China facility. Senior Automotive ordered their 5th Ipsen vacuum furnace, a new H6672 2-Bar TurboTreater™ with its patented gas quenching system. Circle City Heat Treating in Indiana ordered their fifth unit a VFS HIQ-7472-2. This new furnace will give Circle City Heat Treating increased vacuum furnace capacity to serve their expanding customer base. New Hampshire Ball Bearing located in California added a 2 Chamber LOG 2424 2-Bar gas and oil quench vacuum furnace for the specialty bearing marketplace and MicroMotion in Colorado added a HR-54x48 2-Bar MetalMaster™ vacuum furnace to be installed in their Nanjiang China facility.
