Ipsen, Inc. Supports Rockford Youth Programs

June 21, 2010 (Rockford, IL) - Ipsen, Inc., continues its major corporate partnership with the Rockford Park District, benefiting local kids through participation in Sportscore Complex and Ice Arena programs.

A Rockford based company for over 60 years, Ipsen designs and manufactures sophisticated thermal processing equipment. In addition, they have a long history of responsible corporate citizenship and have made meaningful investments in the local area, particularly disadvantaged kids and young adult programs.

According to Ipsen President Geoffrey Somary, "We have a real desire to give back to the community, especially related to its youth. Ipsen views the Rockford Park District as a premier provider of programs for children focusing on wellness and team sports."

Tonya Vernon, Corporate Partnership Manager, explained, "We are delighted that Ipsen found this program and sports complex a perfect fit for their interests and company goals."

Ipsen, Inc.

About Ipsen, Inc.

Ipsen designs and manufactures thermal processing systems for a wide variety of markets, including aerospace, medical, energy, chemical and automotive. With thousands of installed systems worldwide, whether it's innovative titanium knee implants, making cars more efficient, developing new jet engines or going to the moon, Ipsen is there.
